Tests

English Proficiency **Fluent/Native Speaker**

Proof of English level

Some of the program's activities take place in a French-speaking environment, such as the sales seminar or the Redressement/Restructuring mission in partnership with the commercial court. Even though the non-French speaking international students will be teamed up with other French speaking students in these missions, a minimal understanding of French (level B1+) would allow them to better benefit from their learning.

Essays

1. Quelles-sont vos motivations à rejoindre X-HEC Entrepreneurs et pourquoi pensez-vous correspondre à ce programme ? (140 mots max)

I've hated school. I live for education, but I've hated the school system. My plan was clear: going to Bocconi, launching my company to finally feel fulfilled, and graduating to run it full time, even dreaming of dropping out like some did. That was until I heard about X-HEC Entrepreneurs. I need an impulse, to meet talented, driven young entrepreneurs, teachers and mentors, and to learn concretely how to structure a business. X-HEC Entrepreneurs is this leverage I need: actionable patterns, taught through hands-on experience. I never waited to be pushed to jump in the water, but I know only X-HEC Entrepreneurs can truly teach me how to swim. Give me the opportunity to learn by doing among the best, and I'll leave an indelible mark, as a student and as an alum, from Berkley to alumni dinners.

2. Il n'y a pas une seule manière d'entreprendre… Quel est le type d'entrepreneuriat qui vous attire le plus ? (140 mots max)

Along my early journey, I had to wear multiple hats. I've been a solopreneur, shaping projects end-to-end, mostly on my own. It needs to change: I want to learn how to bring a team together and steer it with purpose. At X-HEC Entrepreneurs, I'd finally have the opportunity to live among the designers, developers and business minds I always wanted to build impact with. I'm good at reading patterns and understanding people. It makes me want to create movement and meaning around a team, from partners to customers. One day or another, I'll gather those people to build a product that tells a story of purpose; because nothing carries a narrative better than an object crafted by its storyteller. I'll be a storyteller. I see entrepreneurship as an art, products as artifacts. And I want to turn my ideas into a tangible piece of meaning.

3. De quelle réalisation êtes-vous le plus fier ? (70 mots max)

December 2022. Rejected from Bocconi. No plan B. So I go all in, turning this lesson into drive. Within a month, I launch LightZone: broadcasting World Cup games to support migrant workers in Qatar. 2 cities, +500 people attending, +3000€ raised: my first success. I double down, reapply to Bocconi, and got in against all odds. That month I realized: I'd enjoyed the hustle toward the goal, and asked for more.

4. Décrivez une situation d'échec (70 mots max)

2024, London: a phone stolen every 10 minutes. My solution? iLock.: a made-in-France, anti-theft phone case. After 8 months of prototyping, I go door-to-door pitching to distributors. They like the product, but push for a cheaper production in China. My speech on the value of made-in-France doesn't convince them. iLock. fails, but I learn: my next businesses will need a team, a team that turns values into value.

5. Décrivez-vous en un tweet (140 caractères max)

I've always been and will always be #MAGA (#ManofAltruismGrowthandAbsorption). Altruism to share, Growth to learn, Absorption to thrive.

Vous souhaitez ajouter une information pertinente ? Vous pouvez utiliser la section qui suit pour nous transmettre des informations complémentaires. Merci de noter qu'il ne s'agit pas d'une seconde dissertation. Notez également qu'aucun document supplémentaire, autre que ceux demandés pour votre candidature, ne sera présenté au jury d'HEC Paris.

I made my choice long ago: I'm dedicating my life to education. I can state my drive, my "why", in one sentence: "Education as the Engine of Betterment." My first mission starts here: reinvent schooling with AI, a digital teaching assistant. And for that, only your ecosystem can push me forward: a business mind to sharpen my BP, a designer to shape my sketches, a developer to engineer the ideas. Together, we won't just build products, we'll build meaning, and that's the kind of tribe I'm chasing among the pineurs. X-HEC Entrepreneurs is my Tinder. 120 platinum profiles I'd love to swipe right on. I also know how Tinder works successfully: it's a double opt-in. To match with the best, I'll boost my profile. I have my why and hard work to offer. And I know that if my matches complement the skills I lack, we will embark on the very reason I'm here for: the creation of a purposeful, impactful, and powerful enterprise.
